

KÄRCHER

makes a difference

PREVENTION IS THE BEST MEDICINE.

Portable, high efficiency disinfection directional sprayers.

PROFESSIONAL | PS 4/7 BP OBC MISTER & ELECTROSTATIC SPRAYER

PS 4/7 BP OBC MISTER & ELECTROSTATIC SPRAYER

PS 4/7 Bp OBC Mister

Achieve a higher level of efficacy with the Kärcher PS 4/7 Bp OBC Mister. This hospital-grade directional spraying system is specifically designed for use with Vital Oxide® and Disinfectant 220 detergents. Reduce the risks of Health Care Acquired Infections by killing virus, bacteria and mold faster, safer and more effectively.

PS 4/7 Electrostatic Sprayer

Our Electrostatic PS 4/7 sprayer adds the static charge to the particles to allow them to “wrap around” objects and provide even better coverage. These electrically charged particles will have a tendency to find a negative (oppositely) charged item and stick to it, rather than float as a mist.

1 The next level of clean

- Misting provides higher efficacy by improving coverage more efficiently and effectively than spray wipe methods and wipes. It delivers disinfectant into the numerous hard to reach corners and crevices in every facility that wipe methods can't reach.

2 Safe and easy operation

- The Kärcher PS 4/7 Bp OBC Mister's ergonomic cordless design, battery-power, and simple controls reduce operator fatigue and cleaning errors. The result is a complete and consistent coverage of disinfectant.

3 Whisper quiet & convenient

- Use the Kärcher mister anywhere, anytime. The efficient pump and power supply are specifically designed to provide operation without disturbing people around you. Enjoy the convenience of an on-board battery charger.

4 Maneuverability

- A small foot print and low center of gravity allows the mister to easily glide on 4 swivel caster wheels. Rubber wheels keep the transportation quiet and easy roll over tile floors and thresholds. The narrow design makes it ideal for travel through aisles experienced on planes, busses, trains and other tight areas.

5 A complete non-rinse disinfection system

- The Kärcher PS 4/7 machines provide precise coverage and consistency of disinfectant application - no adjustments needed. Both machines create a spray droplet size of approximately 100 microns.

6 Ideal for high risk areas

- Hospitals and clinics
- Nursing homes
- Schools
- Day care facilities
- Transportation

Technical data and equipment.

Order No.	Description
1.007-084.0	PS 4/7 Bp OBC Mister, battery-powered Hospital-grade directional sprayer
1.007-090.0	PS 4/7 Electrostatic sprayer, lithium battery-powered electrostatic sprayer

ACCESSORIES

Order No.	Description
■ 8.639-048.0	Charger
■ 8.637-980.0	12V AGM battery
■ 8.704-694.0	Chemical pail pump
□ 8.644-738.0	Electrostatic sprayer kit (for retrofitting on previously purchased PS 4/7 machines)

■ Included □ Optional

Detergents

DETERGENTS

Order No.	Description
□ 8.639-558.0	Vital Oxide®, 4 gallon - case, ready to use
□ 8.639-560.0	Vital Oxide®, 6 quart - case, ready to use
□ 8.644-292.0	Vital Oxide®, 5 gallon - pail, ready to use
□ 8.642-823.0	Vital Oxide®, 15 gallon - pail, ready to use
□ 8.698-112.0	Vital Oxide®, 55 gallon - drum, ready to use
□ 8.644-723.0	Disinfectant 220, 12x1 quart - case (contains 12 bottles and 2 trigger sprayers), ready to use
□ 8.644-722.0	Disinfectant 220, 4x1 gallon - case, ready to use
□ 8.644-721.0	Disinfectant 220, 5 gallon - pail, ready to use
□ 8.644-720.0	Disinfectant 220, 15 gallon - pail, ready to use
□ 8.644-719.0	Disinfectant 220, 55 gallon - drum, ready to use
□ 8.644-718.0	Disinfectant 220, 275 gallon - tote, ready to use

■ Included □ Optional
